

A

497 point-mutant strain records

490 source-coordinate substitutions · 116 UniProt accessions

Sequence matched after PBY107 resolution · 487 records

479 substitutions · 113 proteins · 10 unresolved mismatches excluded

Sequence matched with a condition-level profile · 465 records

458 substitutions · 111 proteins · 22 lacked a Supp. Data 3 profile excluded

After whole-genome-sequencing exclusion · 447 records

443 substitutions · 110 proteins · 18 WGS quality flags excluded

After scar-correlation exclusion · 427 records

423 substitutions · 107 proteins · 20 scar-correlation entries excluded

Core annotation and structure eligible · 169 records

166 substitutions · 50 proteins · replicate strains aggregated

Primary 163 substitutions · 48 proteins · 79 screen-positive

Inclusive 0 Å sensitivity 166 · 50 · 82
